# Macro Dynamics Regional Banks & Silicon Valley Bank Wipeout

# Silicon Valley Bank Duration Mismatch

- Silicon Valley Bank increased MBS holdings by ~6.5x while the company's deposit base grew by ~4.4x from 2017 to peak levels in 2021.
- SVB served cash-needy customers like start-ups and VC firms, who ultimately caused a bank run after becoming aware of ~\$15bn of unmarked losses on security holdings.
  - Comparing against equity of ~\$12bn

# Joint Press Release – Depositors Are Safe

#### Joint Press Release

March 12, 2023

#### Joint Statement by Treasury, Federal Reserve, and FDIC

Department of the Treasury

Board of Governors of the Federal Reserve System

Federal Deposit Insurance Corporation

For release at 6:15 p.m. EDT

Share A

Washington, DC -- The following statement was released by Secretary of the Treasury Janet L. Yellen, Federal Reserve Board Chair Jerome H. Powell, and FDIC Chairman Martin J. Gruenberg:

Today we are taking decisive actions to protect the U.S. economy by strengthening public confidence in our banking system. This step will ensure that the U.S. banking system continues to perform its vital roles of protecting deposits and providing access to credit to households and businesses in a manner that promotes strong and sustainable economic growth.

After receiving a recommendation from the boards of the FDIC and the Federal Reserve, and consulting with the President, Secretary Yellen approved actions enabling the FDIC to complete its resolution of Silicon Valley Bank, Santa Clara, California, in a manner that fully protects all depositors. Depositors will have access to all of their money starting Monday, March 13. No losses associated with the resolution of Silicon Valley Bank will be borne by the taxpayer.

We are also announcing a similar systemic risk exception for Signature Bank, New York, New York, which was closed today by its state chartering authority. All depositors of this institution will be made whole. As with the resolution of Silicon Valley Bank, no losses will be borne by the taxpayer.

- All Deposits, irrespective of whether they're uninsured by the FDIC's 250k standard will be returned to customers.
- No losses carried by the taxpayer.
- Avoiding 1930 type bank runs.
- No bailout for equity or bondholders.
- Depositors trust in the banking system restored.
- Banks may continue to fail.

# The Regulators' Response – Funding Facility (BTFP)

#### **Bank Term Funding Program**

**Program:** To provide liquidity to U.S. depository institutions, each Federal Reserve Bank would make advances to eligible borrowers, taking as collateral certain types of securities.

**Borrower Eligibility**: Any U.S. federally insured depository institution (including a bank, savings association, or credit union) or U.S. branch or agency of a foreign bank that is eligible for primary credit (see 12 CFR 201.4(a)) is eligible to borrow under the Program.

**Eligible Collateral**: Eligible collateral includes any collateral eligible for purchase by the Federal Reserve Banks in open market operations (see 12 CFR 201.108(b)), provided that such collateral was owned by the borrower as of March 12, 2023.

**Advance Size**: Advances will be limited to the value of eligible collateral pledged by the eligible borrower.

**Rate:** The rate for term advances will be the one-year overnight index swap rate plus 10 basis points; the rate will be fixed for the term of the advance on the day the advance is made.

Collateral Valuation: The collateral valuation will be par value. Margin will be 100% of par value.

**Prepayment**: Borrowers may prepay advances (including for purposes of refinancing) at any time without penalty.

Advance Term: Advances will be made available to eligible borrowers for a term of up to one year.

Fees: There are no fees associated with the Program.

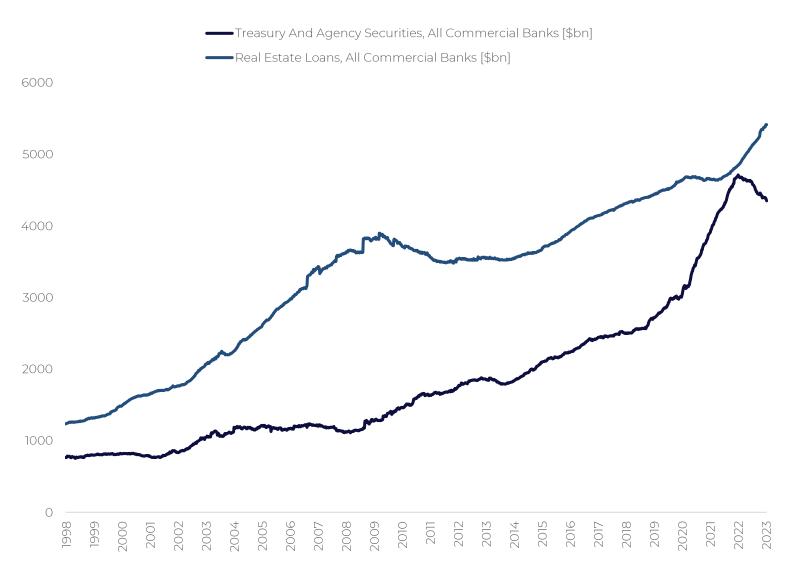

Credit Protection by the Department of the Treasury: The Department of the Treasury, using the Exchange Stabilization Fund, would provide \$25 billion as credit protection to the Federal Reserve Banks in connection with the Program.

**Recourse**: Advances made under the Program are made with recourse beyond the pledged collateral to the eligible borrower.

Program Duration: Advances can be requested under the Program until at least March 11, 2024.

- Banks can post collateral at par, irrespective of market price.
- Borrowing happens at the overnight swap rate (SOFR trades at ~4.55%)

# **Commercial Banks – Securities & RE Loans Holdings**

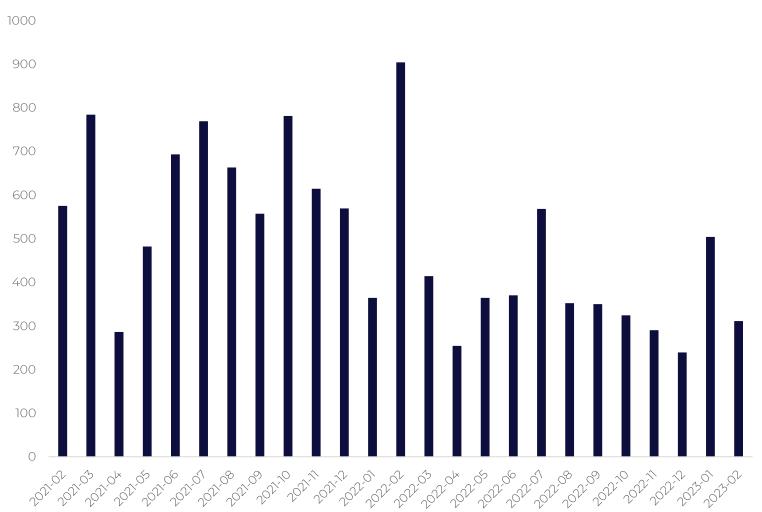

- Since the start of 2019, banks have increased their holdings of treasury and agency securities (treasuries & MBS) by more than 60% while increasing their real estate loan base by 22.5%.
- According to the Fed's H.8 report, treasury and agency securities holdings value is down from \$4.56trn in Feb. 2022 to \$4.25trn as of Feb. 2023., indicating banks might be some \$300bn under water on a mark-tomarket basis.
- The value of real estate loans has increased from \$4.75trn to \$5.30trn, indicating that more loans have been handed out. Where are the marks?

Sources: Federal Reserve, FRED, Alexander Campbell, Blue Line Capital, Blue Line Futures

# **Total Nonfarm Payrolls**

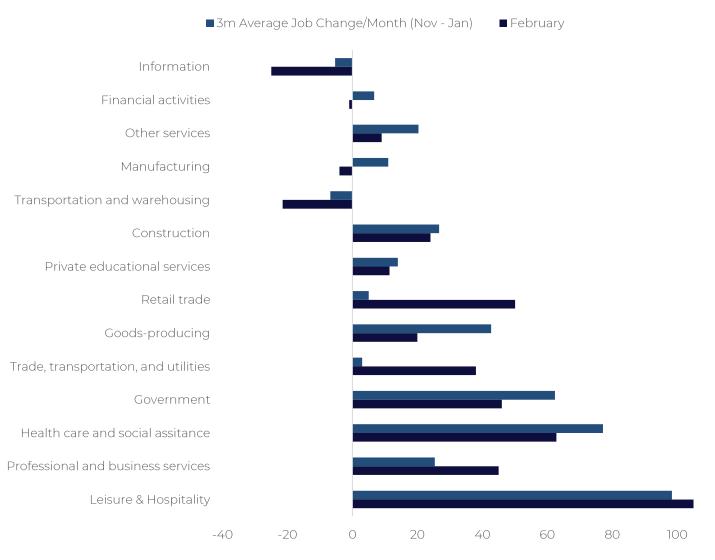

- Employers added 311k jobs in February, below January's 504k (revision down from 517k)
- The unemployment rate ticked up to 3.6%, from a 50year low at 3.4% the month prior.
- Labor Force Participation ticked up to 62.5%, the highest level since 62.6%.
- Prime age labor force participation (25-54 yrs) ticked up to 83.1% (vs. 82.7% in Jan.), back to where it was in January 2020.

#### **Management Commentary From Q4 2022 Earnings Call**

- <u>Lending Balances</u>: We've nearly doubled our lending balances over the last 3 years, and we expect to continue to grow attractive high-quality loans.
- <u>Investment Banking:</u> Weaker Investment Banking results persisted, reflecting the challenging banking backdrop. Investment Banking revenues were \$5.2 billion for the full year, down 49% from the record prior year.
- <u>Wealth Management:</u> For the full year, Wealth Management produced record revenues of \$24.4bn and a record pretax profit of \$6.6bn, resulting in a PBT margin of 27%.
- <u>Total Deposits:</u> Total deposits rose 6% sequentially to \$351bn, driven by continued demand for our savings offering among our Wealth Management clients. Approximately 90% of our deposits are sourced from our Wealth Management client base.
- <u>CETI Ratio:</u> Total spot assets were \$1.2 trillion. Standardized RWAs declined by \$9bn sequentially to \$449bn, reflective of our prudent management of resources. Our standardized CETI ratio was 15.3%, up 50bps from the prior quarter.

#### **Quarterly Data**

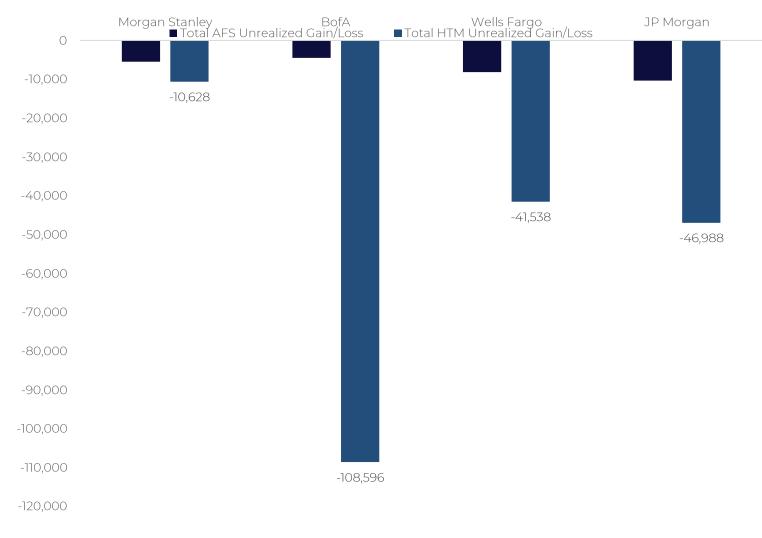

### Resilient Markets & Wealth Management Business Amidst Uncertainty

- Morgan Stanley's markets and wealth management business form the core of the company's revenue and profit share.
  - Wealth Management accounted for 50% of revenue in 2022 (compared to 45% in 2021)
  - Markets accounted for 39% of revenue in 2022 (compared to 36% in 2021)
  - Investment Banking accounted for 11% of revenue in 2022 (compared to 19% in 2021)

Sources: Morgan Stanley IR, Blue Line Capital, Blue Line Futures

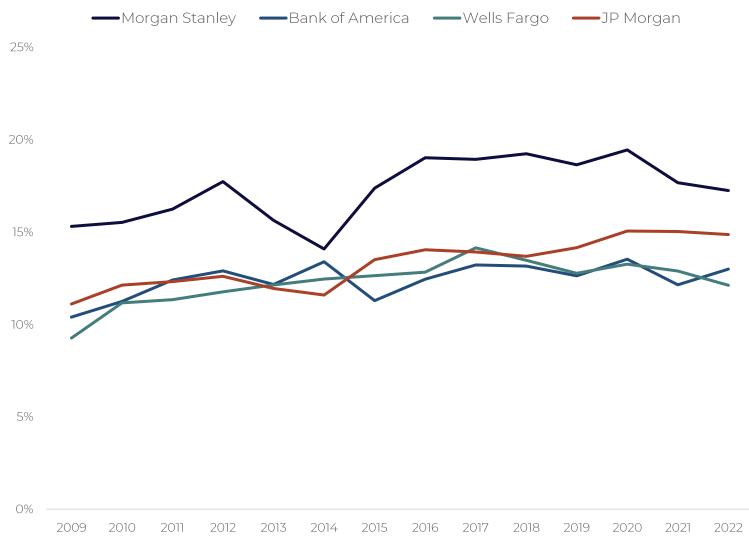

# **Unmarked Losses Exist But Too Big To Fail See Inflows**

- Morgan Stanley has the least unmarked losses from security holdings across major banks.
- Liquidity is not an issue for the too-big-to-fail banks given they're seeing vast inflows of deposits on the back of stress in the regional banking system. Wells Fargo banking analyst Mike Mayo was quoted: "Goliath is winning."
- G-SIBs are yet to see whether there's a regulatory response that would make them less profitable despite the increase in deposits (Globally Systemically Important Banks)

Sources: Morgan Stanley IR, BofA IR, Wells Fargo IR, JP Morgan IR, Blue Line Capital, Blue Line Futures

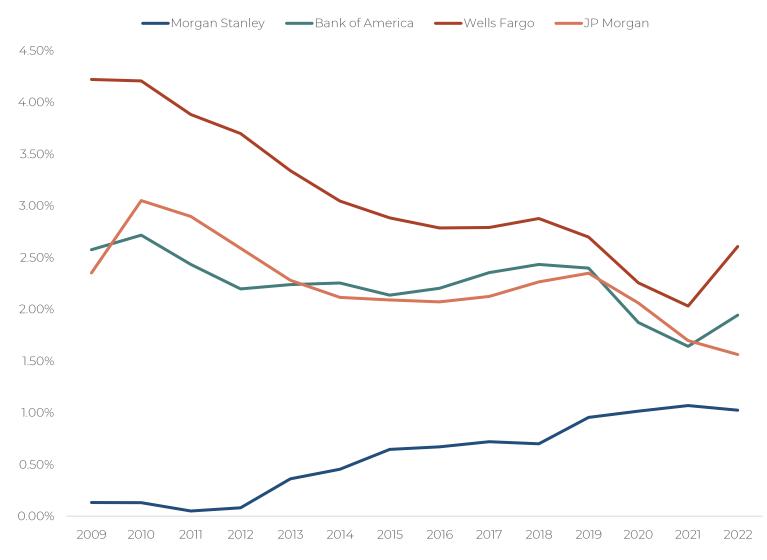

# **Tier 1 Capital Ratios Strong Across Banks**

- Banks are well capitalized, having reduced leverage compared to their asset base and therefore risk exposure.
- As a broker dealer/wealth management bank, Morgan Stanley's strong capital position is supplemented by its reduced exposure to solvency risks if they were to occur.
- Morgan Stanley's Tier 1
   Capital Ratio at 17.2% is above
   the regulatory requirement of
   14.8%.

Sources: Morgan Stanley IR, BofA IR, Wells Fargo IR, JP Morgan IR, Blue Line Capital, Blue Line Futures

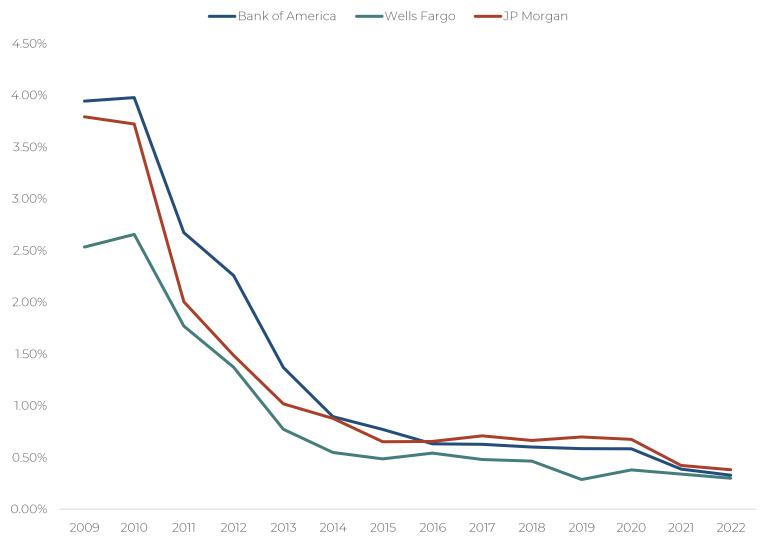

# **Net Interest Income On Interest-Earning Assets**

- Net Interest Income on interestearning assets has recovered, but overall remains a concern going forward.
  - As the spread between what banks pay on deposits and what they charge on loans closes, so will NII Margin (often referred to as NIM)

Sources: Morgan Stanley IR, BofAIR, Wells Fargo IR, JP Morgan IR, Blue Line Capital, Blue Line Futures

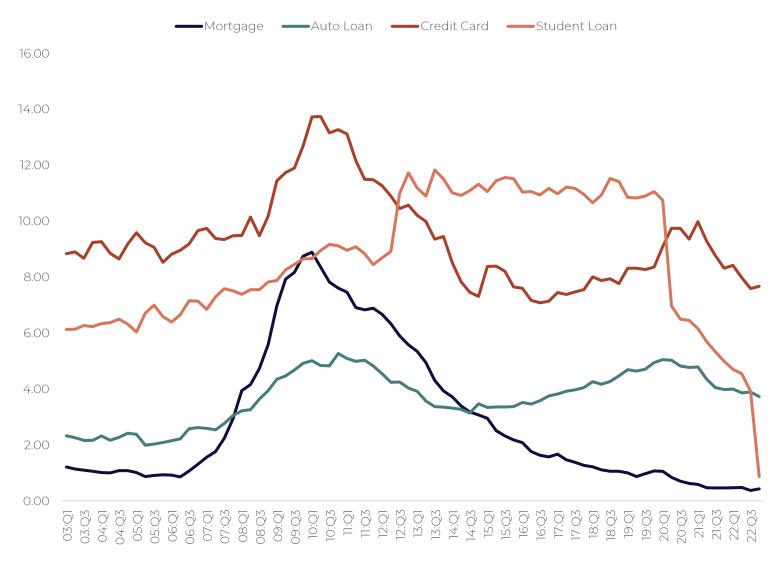

# **Charge Offs Have Been Super Low**

- Banks have not faced solvency issues despite extending more credit to home buyers, auto buyers, and credit card holders.
- Gross Charge Off Rates[2022/2009]
  - BofA [0.33%/3.94%]
  - Wells Fargo [0.30%/2.53%]
  - JP Morgan [3.79%/0.38%]
- Some tick-up in delinquencies is to be expected given that credit scores were likely overstated, leading to lower quality credit origination → dampening spending to a degree.

Sources: Morgan Stanley IR, BofA IR, Wells Fargo IR, JP Morgan IR, Blue Line Capital, Blue Line Futures

# 90d+ Delinquency Rates Stabilize At Low Levels

- 90day+ delinquency rates across sectors have remained extremely low despite layoff announcements by firms.
- Delinquency Rates Comparison
   [Q4 2022 Q4 2019] (%)
  - Mortgage [0.43 1.07]
  - Auto Loan [3.73 4.94]
  - Credit Card [7.67 8.36]
  - Student Loan [0.87 10.75]

Sources: New York Fed, Blue Line Capital, Blue Line Futures

# **Transition Into 30d+ Delinquency On The Rise**

- Transitions into 30d+ delinquency rates are ticking higher, but remain below 2019 levels.
- Delinquency Rates Comparison
   [Q4 2022 Q4 2021 Q4 2019] (%)
  - Auto Loan [6.64 4.96 6.91]
  - Credit Card [5.87 4.10 -6.95]
  - Mortgage [2.25 1.57 3.50]
  - Student Loan [1.18 1.09 9.44]

Healthcare In A Slowing Economy

# United Health Earnings Highlights & Stock Performance

#### **Management Commentary From Q4 2022 Earnings Call**

#### • Business Trends:

- Optum Health: We expect 4 million people will participate in fully accountable value-based care provided by Optum Health, almost 1.8 million more than we served as we enter 2022.
  - Revenues grew by 32% in '22 to \$71bn as we expanded the number of patients served under value-based care arrangements by about 1 million. Revenue per consumer grew by 29%.
- <u>Pharmacy</u>: We engage 1 million people every day...simplifying access through digital solutions in order to make the process uneventful for them. By the end of 2023, we expect to have more than 750 community pharmacies, nearly 200 more than we had at the beginning of 2020. We continue to see the impact these services have at a very local and personal level, helping providers deliver more complete care and better outcomes including medication adherence rates, which are about 90% compared to the 50% U.S. average.
- Optum Insights: Revenues grew 20% to \$14.6bn in '22.
- OptumRx: Revenues grew 9%, approaching \$100bn for the year.
- <u>United Healthcare</u>: Full year revenues of nearly \$250bn grew 12%. Expect to serve up to 900,000 more people in '23 across our individual, group and dual special needs offerings.

#### **Quarterly Data**

# **Adobe's 2 Main Business Segments**

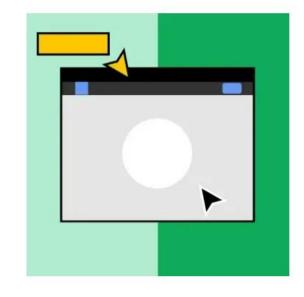

### Why choose Figma over Adobe XD?

#### Faster in the cloud

With Figma, your files just live on the Web. No more version mixups. No more cloud syncing. No more transferring files between your work and personal computers.

#### Collaboration first

Figma was purpose-built for collaboration. Sharing files is a breeze, and collaborators have the right context to give the right feedback. Collaboration features are hard to tack on to an existing product.

#### No detail too small

Designers who've tried both Figma and Adobe XD tell us the <u>difference is</u> in the details. Figma pays attention to the smallest of product details (because we know you do).
